

my

# NEW NORMAL

## Step One

We have always had an open door policy at Princes House, but for now you will be greeted at the door and let in by me for your boutique appointment. Once in our lobby we will all sanitise our hands before making our way up to the boutique.

## Step Two

The fun really begins when you try the dresses on! To make it as safe as possible for everyone, please make sure you all have a mask with you for when we're in close contact.

# Star Guests

I have always believed it's a lot of fun to invite all your gang to your bridal appointment but now I have to restrict it to just people from your household or support bubble. BUT we won't let the restrictions stop one of the most magical moments in any girl's life being shared with her closest friends & family, we can video call them!

Despite the challenging ways of working – we  
WILL find THE ONE!

With love Elaine xx
